

Efficiency for Total Release Fogger. The Fogger has been tested against the following:

Virucidal Efficacy

1. Norovirus
2. Influenza (A-H1N1)
3. HIV - 1 (AIDS Virus)
4. Polio
5. Picornavirus
6. Enterovirus
7. Rubella
8. Vaccinia
9. Hepatitis B (HBV)
10. Adenovirus type 4

Fungicidal Efficacy

1. Aspergillus Niger (Mould and Mildew)
2. Candida Albicans
3. Penicillium verrucosum
4. Trichophyton Mentagrophytes

Bactericidal Efficacy

- | | |
|---------------------------------|--|
| 1. Staphylococcus aureus | 22. Shigella Sonnei |
| 2. Staphylococcus aureus (MRSA) | 23. Shigella Flexneri |
| 3. Staphylococcus aureus (VISA) | 24. Staphylococcus Epidermidis |
| 4. Salmonella Choleraesuis | 25. Streptococcus Faecalis (Vancomycin Resistant) |
| 5. Salmonella enteritidis | 26. Streptococcus Faecalis (Methicillin Resistant) |
| 6. Salmonella Schottmuelleri | 27. Streptococcus Pyogenes |
| 7. Salmonella Typhi | 28. Xanthomonas axonopodis pv. Citri (Citrus Canker) |
| 8. Klebsiella Pneumoniae | 29. Klebsiella Pneumoniae (Methicillin Resistant) |
| 9. Pseudomonas Aeruginosa | 30. Serratia Marcescens |
| 10. Escherichia Coli | 31. Acinetobacter Calcoaceticus |
| 11. Staphylococcus Epidermidis | 32. Brevibacterium Ammoniagenes |
| 12. Proteus mirabilis | 33. Chlamydia Psittaci |
| 13. Proteus Vulgaris | 34. Enterobacter Aerogenes |
| 14. Legionella pneumophila | 35. Enterobacter Cloacae |
| 15. listeria monocytogenes | 36. Enterococcus faecalis (Vancomycin Resistant) |
| 16. Pasteurella multocida | 37. Enterobacter Coli |
| 17. Streptococcus Faecalis | 38. Escherichia Coli (Methicillin Resistant) |
| 18. Fusobacterium necrophorum | |
| 19. Bordetella bronchiseptica | |
| 20. Serratia Marcescens | |
| 21. Shigella Dysenteriae | |

The Total Release Fogger is the smallest fogger available and kills up to 99.999% of bacteria, fungi and viruses, including norovirus, E. Coli, Influenza etc.

The Fogger doesn't leave behind any residue; only a fresh, non-overpowering lemon scent. They can sanitise an area of up to 25 cubic meters in size and they don't take up much room on shelves. They can be utilised in areas such as: cars, vans, ambulances, offices, waiting rooms, changing rooms, toilet facilities, nurseries, hotels and many more.
